Subject: Re: new address

Dear Bev,
Here are the numbers for the ABD-B exons:
4-5 = 757 bp
6-7 = 1264 bp
7-8 = 57 bp

The start of transcription is not published in our paper but is 1011 bp upstream from the start of translation. I hope this information is useful to you and your database group.

Susan Celniker
