Hi Stuart.

Sorry to take so long to get back to you about this. There is a published citation for pWUM: M. Heck et al., JCB 123: 665-679, 1993. I don't have a copy of it here, and can't remember how good the description of pWUM is (I didn't write it) - in fact there may only be a map of pWUM-B, one of its derivatives - I can't remember any more. But let me know if that isn't useful, and I might be able to dig up a better map from somewhere. And certainly it is OK to send it out, given that it is now published.

don't know if I'm going to make it to any meetings this year - it's hard to think about going anywhere when I still barely know what I'm doing here, let one have any results! But we have money for one a year, so I'll probably find something to go to.

pWUM (M. de Cuevas)

NcoI EcoRI

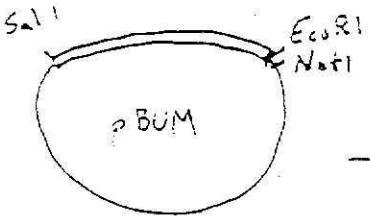

CC ATG GAG CAA AAG CTC ATT TCT GAA GAG GAC TTG AAT TC

M

↓ cut UM out w/ Sal I + EcoRI
ligate into pBluescript KS = pBUM

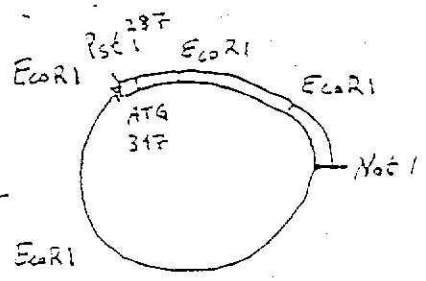

2.8 cDNA

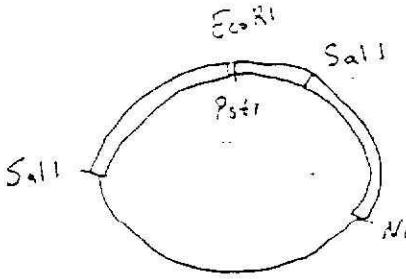

↓ partial PstI + NotI into pBluescript

cut w/ EcoRI + NotI

partial EcoRI + NotI

⇒ myc tag + 2+ aa + Mad

↓ partial Sal I + NotI into CuSpeR + XhoI + NotI

PUM = UbiqMyc Sal-RI → pMT23P
