Write your new data or corrections below. If the work is published, please give a traceable reference. These data will be referred to as 'Z. Bloggs, personal communication to FlyBase <date>. FlyBase will not correct data or add data unless they have a paper or email record. In particular FlyBase will not curate data from oral presentations or posters.

lune is allelic to or stated to be the same as (demonstrated by rescue mutant phenotype poster 126A) eye gone. Allelism is incorrect as no mutants of lune have been isolated.

Df(3)C1 = Df(3L)C1
In(3)C53 = In(3L)C53 isolated by H. Sun.
